

It's 2010.

Do you know where your young adults are?

They may be at Mass, off at college, be seeking to get married at your church or even be parents of children in your Catholic school or faith formation program, yet many young adults are not plugged into parish life. Sadly, they might not even know they're missed. You know that your parish can help them make connections and build networks, search for meaning, for God, and work towards making a difference in the world. So you're left wondering:

What could your parish do differently?

*A service of the Diocese of Buffalo
Department of Youth & Young Adult Ministry*

Make Your Parish Young Adult-Friendly

A two-hour orientation and assessment process on making your parish a home for young adults

How we can help:

We bring the program to your parish! You invite our department to do a two hour program for your parish staff, parish council, ministry leaders, and anyone else who has a stake in reaching out to young adults. We'll come with a dynamic presentation including an opportunity to hear from young adults about what works and why.

What you'll get:

- Gain insight: discover some basic characteristics of 21st century young adults-who they are, what they want and need
- Take inventory: discover what good things you're already doing and plan for what more you can do
- Discern practical next steps
- Have your questions answered by young adults about what they're thinking and feeling

Act now!
